The Orange County Mustang Club

In 1987, a group of individuals who appreciated the beauty and performance of the Ford Mustang joined together to form the Orange County Mustang Club. Their purpose was to promote the restoration, preservation and enjoyment of the Ford Mustang. To perpetuate this goal, members pay yearly dues, meet monthly, promote car shows, hold social activities, take cruises and attend parades and other activities to foster the love of the Ford Mustang. Any person who owns or appreciates the Ford Mustang, no matter what model or year, is welcome to join. Ownership is not obligatory, but enthusiasm is.

MESSAGE FROM YOUR PRESIDENT

I love my Mustang. I wanted one since 1966 when Sonny and Cher were given a pair of customized convertibles. I never thought I'd have more than one special car but, of course, Tom, had to have a six speed and I would love to have a classic like Cher's Classic '66.

There are a lot of club members with more than one special car. The Weiss's have a 2015 and two classics, the Zimmermans have eight (at last count) while the Payiches have 11 or nine or ? and a Fire Truck. Good thing this is not a contest because our newest member cannot be beat. She owns over 100 of the most beautiful Mustangs. Rae and her husband, Ted Segerstrom, not only became a generous sponsor, but joined the Orange County Mustang Club family. 

Bob Hammond, OCMC Event Director, is feeling better, and has filled our calendar with fun and interesting events. You wanted a picnic with food, fun and games... we have reserved a huge pavilion; we're heating up the BBQ for the burgers and it's FREE to all OCMC members. Bring your family and friends for only five dollars each. There's only one catch - you must RSVP.

GO TO www.OCMustangClub.COM

This year it's our turn to welcome Mustang Owners Club of California aka: MOCC, to Orange County. We are planning a poker run with prizes and trophies. Please RSVP for the May 20 event. See page 3 to update your calendar for this and the other fun events.

We have had so many awesome compliments this year, 2023 is starting off great. Other clubs are sharing ideas and events with us. Most recently, the Lions club reached out to us to run the Silverado Day Car show. What an honor! Mark your calendar for a great October Silverado Days Car Show on October 22 and the always, amazing ALL FORD – Mustang Madness show at Ken Grody on October 29. It's going to be an awesome year!!!

Welcome our newest sponsor.

Once upon a time.....

...on a chilly Sunday morning, PacecarMike headed to the California Speedway with his pace car. As he parked in the car corral, he was greeted by two members of the OCMC car club, Ivan and Don, who had their Mustangs parked nearby. They chatted for a while, admiring each other's cars and sharing stories about their love for racing.

As they made their way to their seats, they were joined by Jeff Grant, Toni, and a few others. They were all excited for the NASCAR race that was about to begin. The roar of the engines filled the air as the cars took to the track for the warm-up lap.

The race was intense from the start, with drivers jostling for position and trying to gain an edge. It was difficult to keep track of who was leading, but everyone was rooting for their favorite drivers. PacecarMike was cheering for Kevin Harvick, who was having a great run and had managed to stay near the front of the pack.

Despite the freezing temperatures, the atmosphere in the stands was electric. The sound of the engines, the smell of gasoline, and the excitement of the crowd all added to the thrill of the race.

As the laps went by, the drivers became more aggressive, trying to gain any advantage they could. The race was full of close calls and near-misses, with cars sliding and bumping into each other. PacecarMike watched in awe as the drivers navigated the track at high speeds, with only inches between them.

In the end, it was a nail-biting finish, with the drivers fighting for every inch of track. Although PacecarMike wasn't sure who won, he was thrilled to see Kevin Harvick finish in fourth place.

As the race came to a close, PacecarMike and his friends felt a sense of sadness knowing that this would be the last race on the two-mile oval track. The Speedway was changing the size of the track, and they weren't sure what the new track would be like. PacecarMike couldn't help but feel nostalgic as he remembered the first race he had attended in 1997.

Despite the bittersweet feeling of the end of an era, PacecarMike and his friends knew that they would always cherish the memories of the races they had attended at California Speedway. They left the track with a sense of satisfaction, knowing that they had witnessed a thrilling race and experienced the magic of NASCAR.

3 Board members celebrated their birthdays with OCMC friends.

CHAT and CHEW

The 3rd Wednesday of each month

We had another fun club breakfast in February with about 17 members in attendance. I can always tell when good conversations are going on by the level of noise in the room punctuated by lots of laughter. Names were drawn for prizes and Lotto Scratchers. John won a free ticket. Join us next time, Wednesday, March 15th, when everyone who wears a bit o' green will get a special treat!

Jeannie Weiss – OCMC's Master Baker

By Barb DeLong

Everyone knows Jeannie and Jeff Weiss, and if you come to the OCMC general meetings, you surely know Jeannie by the cakes and other deserts she creates and shares with all the attendees. She's mindful of dietary needs as well, so she brings a handful of sugar-free cupcakes, some dairy-free as well, and others if asked.

For the Valentine meeting in February, she made a German chocolate cake that was to die for, and probably weighed fifty pounds (some of which I added to each hip after my generous piece.) Yes, the club gives her a monthly stipend toward the cost of ingredients, but she packs so much love and generosity into everything she bakes, that every desert is priceless. Thank you, Jeannie, for the years and years you've dedicated to spreading a bit of your sweetness to us all.

ENTER THE 'A' (again)

The follow-up to the Model T was the return to the Model A designation, the first 'A' being produced in 1903. Henry Ford said the new car was such a departure from the 'T' that he wanted to start over again with the 'A' instead of his previous naming path which would have resulted in the car being called the Model U.

The new Model A was a completely different car that did not carry over any parts from the Model T. It was lower and sleeker than the Model T. The 4 cylinder engine was upgraded and the chassis was all new.

Introduced to the public in December 1927, the 1928 Model A was an immediate sensation. Some 10 million people viewed the new vehicle in the first week. The crowds gathered in such numbers that many cities needed to send police to help direct traffic around those who lined up to see the new Ford.

Model A production ended in March 1932, after 4,858,644 had been made. The A was introduced with only four available body styles but that had grown to nine by the end of its run.

The term 1932 Ford refers to three models produced by Ford Motors between 1932 and 1934. They were the Model B, the Model 18, and the Model 40. These three models succeeded the Model A. The Model B had an updated four cylinder and was available from 1932 to 1934. The V8 was introduced in the Model 18 in 1932, and then in the Model 40 in 1933 & 1934.

Prices for the Model A ranged from \$385 for a roadster to \$1,400 for the top-of-the-line town car. The Model A was the first Ford to use the standard set of driver controls with conventional clutch and brake pedals, throttle, and gearshift. Previous Fords used controls that had become uncommon to drivers of other makes. A rear-view mirror was optional. In cooler climates, owners could purchase an aftermarket cast iron unit to place over the exhaust manifold to provide heat to the cab. A small door provided adjustment of the amount of hot air entering the cab. The Model A was the first car to have safety glass in the windshield

The Model 40 was a significant styling departure from the Models A, B and 18. It sported a revised grill, longer wheelbase and a more rounded and streamlined body configuration. It continued to be offered in 10 body styles. This is the car famously used by Bonnie & Clyde in their final run from the law.

These four car models were replaced by the more streamlined Model 48 in 1935.

Steven Spielberg Is Planning a Bullitt 2.0

Bradley Cooper is set to play the title role originally played by Steve McQueen

Of all the films about cars that have attained cult status, right at the top sits Bullitt, released in 1968. The movie starred Steve McQueen, but that is only one of the elements that have made the movie a classic. The car chase found near the end of the movie took it to mythic status.

That chase featured a 1968 Ford Mustang and a 1968 Dodge Charger. Steve McQueen, an avid racing driver, was behind the wheel for much of the shooting of that sequence - which of course only added to the mythical aspect of the film.

Ford, no fool, has produced periodic Bullitt versions of its Mustang since then.

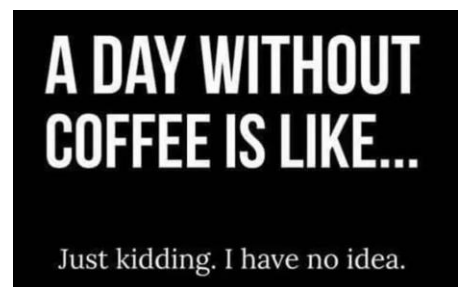

Nearly 55 years later comes confirmation of a rumor that has been floating around for a few years now. Another movie great, director Steven Spielberg, is going to give the world a modern version of Bullitt.

This time, Bradley Cooper plays the title role. Variety reported that Warner Brothers is developing the film and that it will be

completely different from the original. We can probably expect to see the Ford Mustang and Dodge Charger return, possibly in modern iterations. Then again, Spielberg and co. might just choose to go in another direction and use other models. We'll see.

For the moment, we don't know anything about the plot of the movie, but you can take to the bank there will be at least one major car chase. Recall that Spielberg is no stranger to the genre; his first major feature film was Duel (1971), which was essentially one long car chase. His second? The Sugarland Express (1974), also essentially one long car chase.

Bradley Cooper is said to be co-producing the film with Steven Spielberg. Interestingly, Steve McQueen's son and granddaughter, Chad and Molly McQueen, are also involved in the project.
